- WRF (Weather Research & Forecasting) model, GrADS, Matlab and Fortran
- Microsoft Office™ tools (Word™, Excel™ and PowerPoint™)
- Excellence on tailored production software for previous position

## COURSES & CERTIFICATIONS

- Leadership Skills
- Communication Skills
- Coaching Skills
- Web development courses on Udemy

## SUMMARY

I'm a self-starter on web development with a M.Sc. degree and diverse background and I have recently finished my web development internship at DigitalGuest. At this position I was developing with Vue.js, HTML5, CSS3, and Javascript and with the use of Git, npm, Bitbucket and Jira I worked in an agile way to implement new functionalities and UI updates on the platform. I have also deployed a Heroku app (RESTfull routing) whilst following online courses on web development. I'm highly adaptable, passionate about succeeding in the field and goal oriented. I have moved to Aarhus from the UK with my partner ready to look for my next professional challenge.
